

AJAY RAMDAS PARHAR

Senior MERN Stack Developer

Pune, Maharashtra, India | +91-7721908843 | parharajay001@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Experienced and results-driven Senior MERN Stack Developer with over 4+ years of hands-on experience in building and maintaining scalable, high-performance web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in TypeScript, clean architecture principles, and modern frontend development with Redux, MUI, and TailwindCSS. Proven track record in payment gateway integration, in-app purchases (iOS & Android), AWS services (S3, EC2), and database technologies including PostgreSQL, PostGIS, MongoDB, and MySQL. Skilled in implementing secure authentication strategies including token-based (JWT), OAuth, and biometric authentication. Adept at crafting dynamic, responsive interfaces, API documentation with Swagger, and integrating robust back-end services with a focus on performance optimization and secure design.

WORK EXPERIENCE

MERN Stack Developer *Jun 2025 – Present*

SpiderWeb Technologies / Knovatek Inc. | Canada (Remote)

- Develop and maintain scalable web applications using MERN stack technologies including React.js, Next.js, Node.js, Express.js, MongoDB, and TypeScript.
- Utilize AI-assisted development workflows with Claude Code for rapid feature development, debugging, refactoring, documentation generation, and improving developer productivity.
- Deploy and manage applications using AWS EC2, Docker containers, and AWS S3 for scalable cloud infrastructure and secure file storage.
- Collaborate with cross-functional teams to rapidly prototype and deliver user-focused features in Agile development environments.
- Build reusable and maintainable frontend architectures using React.js, Redux Toolkit, MUI, and responsive UI development best practices.
- Optimize backend services and database performance using PostgreSQL, PostGIS, MongoDB, and efficient API design patterns.
- Integrate secure payment gateways, third-party APIs, and authentication systems including JWT and OAuth-based workflows.
- Perform application debugging, testing, and performance optimization using Jest, Supertest, Chrome DevTools, and AI-assisted analysis workflows.

MERN Stack Developer *Mar 2022 – Jun 2025*

Cisconic Pvt. Ltd. | Hyderabad, Telangana, India (Remote)

- Delivered full-stack projects including RevolutioM, Patient Portal, Real Estate Platform, and E-Commerce System.
- Led end-to-end development of complex web platforms, architecting scalable frontend and backend solutions.
- Built secure RESTful APIs with Swagger documentation and implemented multiple authentication strategies including token-based (JWT), OAuth, and biometric authentication.
- Improved application performance through SQL query optimization, backend refactoring, and caching strategies.
- Integrated in-app purchases, payment gateway modules, and third-party services into production applications.
- Participated in Agile ceremonies including sprint planning, retrospectives, and daily standups.
- Mentored junior developers, conducted code reviews, and maintained high code quality standards.

Full Stack Web Developer (Intern)*Jan 2020 – Jul 2020*

Neeta Tech Tyre Private Limited | Pune, Maharashtra, India (On-site)

- Developed the Doctor On Door Lifeline healthcare platform as part of the core development team.
- Built key frontend modules and integrated REST APIs with the user interface for seamless data flow.
- Assisted in early-stage application development, testing, and debugging across the full stack.

EDUCATION

Master of Computer Science (MCS)*2018 – 2020*

MES Garware College of Commerce (Autonomous), Savitribai Phule Pune University

Bachelor of Computer Science (BCS)*2014 – 2018*

Rayat Shikshan Sanstha's Dada Patil Mahavidyalaya, Savitribai Phule Pune University

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux / Redux Toolkit, TypeScript, HTML5, CSS3, SCSS, MUI (Material UI), TailwindCSS, Responsive Design, Highcharts

Backend: Node.js, Express.js, RESTful APIs, Swagger, Token-Based Auth (JWT), OAuth, Biometric Auth, In-App Purchases (iOS & Android), Payment Gateway Integration, AI integrations.

Databases: MongoDB, Mongoose, PostgreSQL, PostGIS, MySQL

Cloud & DevOps: AWS S3, AWS EC2, Docker, Git, GitHub, GitLab, Bitbucket, Webpack

AI Tools: Claude Code, OpenAI Codex, AI-assisted development workflows

Testing: Jest, Supertest

Tools: VS Code, Postman, JIRA, Azure DevOps, Chrome DevTools

Methodologies: Agile / Scrum, Performance Optimization, Clean Code Practices, Code Review

LANGUAGES

English, Hindi, Marathi
